◦ SKILLS ◦

React

Ruby

HTML & CSS

JavaScript

PostgreSQL

React Query

Heroku

Node.js

Jest, React Testing Library

TypeScript

◦ HOBBIES ◦

Most of my spare time is spent learning. However, I start most days with a short run. Enjoy outdoor activities such as skiing and hiking. I'm also an avid reader (or these days mostly audio books) and enjoy relaxing with a movie or video game.

Please note: I am currently located in Beijing and returning to live in the UK on July 22nd.

PERSON PROFILE

Passion-driven software developer seeking to use proven JavaScript, React, and Ruby skills to build excellent products. Looking for an entry level position in a fast-moving, collaborative environment where my desire to learn can contribute to your business and help in my continued efforts to become a Lead Full-Stack Developer.

★ RELEVANT PROJECTS

GreenGym - Fitness and Wellbeing Web App - greengym.com.cn

April 2022 — July 2022

- **Fitness Web App** designed to allow users to follow a daily video exercise routine.
- Designed interactive Proto-type using Figma to validate design choices with client.
- Built a complex SPA using React and React Query; state management library Context API, and multi language selection using the i18Next frame-work.

FreeMe - Portfolio Builder - freedom.herokuapp.com

- Designed to allow freelance developers to quickly and easily build a **portfolio**.
- Managed project and lead on the back end; using Ruby on Rails and vanilla JS.
- Gained valuable knowledge of the development process and proved I had the skills to produce a Web App from inception to deployment.
- Other tech used: ES6, Scss, Pundit, Devise, SortableJS.

Personal Portfolio - alex-pritchard.com

- Built using Create React App and designed using **Figma**
- Utilised what I'd learned about React's Context API to create a light / dark mode.

EMPLOYMENT HISTORY

Lead Teacher / Teaching Assistant at Le Wagon Coding Bootcamp, Shanghai

September 2021 — Present

- Oversaw the Ruby module - teaching programming fundamentals using Ruby.
- Implemented kick-off and live code sessions - creating example code snippets that made new concepts as clear as possible.
- Assisted during OOP and Ruby on Rails modules; coaching students through coding challenges and advising them during the design phases of their final projects.

Middle School International Teacher and Subject Leader at Beijing 21st Century International School, Beijing

September 2017 — Present

- Oversaw complete redesign and implementation of curriculum for English language subjects for grades 7 - 9.
- Implemented an after school English study group for struggling students which saw a dramatic up turn in participation for those students involved.
- Created the 7th Grade Film Competition with the goal of encouraging students to use the language they had learned in class - has been running for four years.

EDUCATION

Le Wagon Bootcamp, Shanghai

February 2021 — July 2022

- 24-week intensive program - completed part-time while continuing to work.
- Covered the basics of Ruby, software modeling, Database and SQL, Front end, Rails framework & AirBnb project, and 4 week final project.

University Of Plymouth, Plymouth, Devon

2001 — 2004

- BA (Hons) Animation and Creative Media.
